# NAGALAND

**Area : 6,366 sq. miles.**
**Population : 369,200 (1961 Census).**
**Headquarters : Kohima.**

Administrative Districts with headquarters shown within brackets : Kohima (Kohima); Mokokchung (Mokokchung); Tuensang (Tuensang).

There are 860 villages.

The economy of the unit is mainly dependent on agriculture. Revenue is derived from house tax and forest produce like bamboo, cane, timber, thatch and 'Agar'.

The deficit in food production at the beginning of the Third Five Year Plan was estimated at 5,400 tons, the major crop being rice which accounts for 80 per cent of the total output of food. This deficit may be reduced to 2,200 tons by the end of the Third Plan. In the villages people depend mostly on their own cottage industry for cloth. Yarn is made locally though it is also imported. Towns now import mill cloth.

The main tribes in the Area are : Angami, Sema, Lhotha, Ao, Rengma, Chakesang, Sangtam, Konyak, Chang, Phom, Yimchunger, Khemnyuan, Zeliang-Kuki.

The administrative unit known as Naga Hills and Tuensang Area (N.H.T.A.) comprising the Naga areas of Assam State and North-East Frontier Agency, that is, the Naga Hills District of Assam and the Tuensang Frontier Division of NEFA, came into being as a separate entity on December 1, 1957, following the acceptance by the Government of India of a resolution passed by the first Naga People's convention at Kohima held on 22nd August 1957 which advocated this course as a step for solving the political deadlock there.

In pursuance of an agreement between the Naga People's convention and the Government of India on the basis of the recommendations of the convention held in October 1959 at Mokokchung, the Naga Hills and Tuensang area was renamed as Nagaland from 18th February 1961 under the Nagaland (Transitional Provisions) Regulation, 1961 as a preliminary to the constitution of Nagaland into a full-fledged State of the Indian Union.

Until Dec. 1, 1963 Nagaland continued to be administered by the Governor of Assam as Agent to the President, with the advice and assistance of an Executive Council consisting of five members with a Chairman, known as the Chief Executive Councillor and an Interim Body of 45 members. The Executive Councillors functioned as a *de facto* Council of Ministers for Nagaland in the discharge of their responsibilities for the subjects respectively allotted to them. The Interim Body functioned as a *de facto* Legislature for purposes of consideration of Budget, Development Programme and other matters falling within the sphere of the Executive Council. There was a Chief Secretary to the Administration, who was responsible for the coordination and enforcement of all Government orders. There was also a Chief Executive Officer to whom the three Deputy Commissioners of the districts were subordinate. The Governor entrusted with special responsibilities for Law and Order until the situation return to normalcy and had also general responsibility for Finance. He had a Secretary for Nagaland affairs in Shillong to assist him besides the other officers in his Secretariat.

## NAGA CONVENTION

A Naga People's Convention which met at Kohima in August 1957 marked a turning point in the solution of the Naga problem. There were about 2,000 delegates representing various Naga tribes.

The convention approved a resolution prepared by a drafting committee. The essence of it was the formation of a Naga State within the Indian Union and internal autonomy with responsible government.

The Interim Body for Nagaland was inaugurated on February 18, 1961 by the Governor of Assam at Kohima. Forty-two members of the Interim Body were sworn in. These representing 14 Naga Tribes constituted the State Assembly until the Nagaland was formally created on Dec. 1, 1963 by the President. Dr. Imkongliba Ao was elected the first Chairman of the Interim Body and after his assassination on 21st September 1961 Mr. T. N. Angami was elected Chairman. Mr. Chaubatoshi Jamir was nominated M.P. for Nagaland and took his seat in the Lok Sabha in November, 1961.

The Nagaland five-man Executive Council was sworn in on March 16, 1961 at Raj Bhavan in Shillong. The following five Executive councillors were sworn in : Shilu Ao (Chairman), Jasokie Angami, R. C. Chiten Jamir, Hokishe Sema and Akum Imlong Chang.

### Bills to Legalize Nagaland Set-up

Mr. Nehru introduced in the Lok Sabha on Aug. 21, 1962, a Bill to legalise the formation of the State of Nagaland—the 16th in the Union, in pursuance of the agreement in July 1960, between the Govt. of India and the leaders of the Naga People's Convention.

The Prime Minister also introduced the Constitution (13th Amendment) Bill which incorporated the special features of the agreement. They include a provision that the Governor of the State shall have special responsibility for law and order so long as the hostile activities continue. Further, no Acts of Parliament shall apply to Nagaland in regard to religious or social practices of the Nagas, Naga customary law and procedure and ownership and transfer of land except with the concurrence of the Nagaland legislature.

The Lok Sabha passed the State of Nagaland Bill on Aug. 29 with an amendment that any order passed by the President to remove difficulties in giving effect to the provisions of the Act, should be laid before Parliament, and also the Constitution (13th Amendment) Bill. The above two Bills were approved by the Rajya Sabha on Sept. 3, 1962.

The drafts of the two Bills were discussed by the Interim Body on June 7, 1962. The draft Bill for the creation of the separate State of Nagaland was sent to the Assam Chief Minister by the Union Government for consideration in June. It was referred to the Assam Legislative Assembly before being introduced in the Parliament.

General Elections for Nagaland Legislative Assembly with an initial strength of 46 (it may be raised to 60 after ten years) were held in the second week of January, 1964 exactly 40 days after the inauguration of the State.

The new Ministry which was sworn in on January 25, 1964 by the Governor of Nagaland consists of eight Ministers including one Deputy Minister.

### PEACE TALKS

Attempts for bringing about peace in Nagaland were initiated in January 1964 by the Baptist Church leaders who held a convention at Wokha. The convention proposed to form a Peace Mission consisting of four members, namely, Mr. Jayaprakash Narayan, Mr. B. P. Chaliha, the Rev. Michael Scott and Mr. Shankarrao Deo. But ill health prevented Mr. Shankarrao Deo to take up the mission. The Peace Mission contacted the rebel Naga leaders and had discussions with them. These discussions led to an agreement between the Government and the Naga rebels and came into effect at midnight of Sept. 5, when the military operations in Nagaland and the disturbed areas of Manipur State were suspended.

Preliminary talks between the hostile Naga delegation was started on September 23rd, 1964 at Chedema near Kohima. Both expressed the desire to evolve a mutually acceptable solution. The Indian delegation consisted of Mr. Y. D. Gundevia,* Mr. P. Shilu Ao, Mr. U. N. Sharma, Mr. D. M. Sen and Mr. N. F. Suntook. The peace period which was initially for one month was extended first upto 15th October 1965, then upto Nov. 15, 1965, then upto Jan. 15, 1966 and again upto April 15, 1966.

Until December 1964 there had been six rounds of talks at Chedema, but as the underground did not change their stand for independence, which was rejected by the Indian delegation, the Peace Mission was requested to put up some formula which could form a basis of discussion and mutual understanding. The Peace Mission put forward its proposals in December 1964 which, in short, asked the underground to decide on their own volition to be a participant in the Union of India and mutually settle the terms and conditions for that purpose. The Mission further recommended that on the other hand the Government of India may consider to what extent the pattern and structure of the relationship between the Nagaland and the Government of India could be adapted and recast so as to satisfy the political aspirations of all sections of Naga opinion. The proposals by the Peace Mission have been commended by the Baptist Church leaders, by the village, tribal and range councils. But so far, the underground have neither accepted nor rejected these proposals. In January 1965 the venue of talks was shifted to Khensa near Mokokchung. There have been rounds of talks in Khensa on February 24, April 6, May 4 and July 1, 1965.

Meanwhile a 14-member Parliamentary delegation consisting of Messrs Hem Baruah, R. N. Barua, M. P. Bhargava, R. G. Dubey, U. K. Gujral, Ansar Harvani, A. P. Jain, R. S. Kanderkar, M. R. Masani, H. N. Mukerjee, R. S. Panjhazari, N. G. Ranga, Dr. S. Chandrasekhar and Dr. M. N. Siddhu visited Nagaland and met the underground at different places and had frank talks with them. In its report the delegation said : "The delegation is left with no doubt that the suspension of firing as from September 6, 1964 and its continuance has been greatly appreciated by the Naga people as a whole. The Chief Minister and a number of officials whom we met thought that the prolongation of peace was both to India's and Nagas' advantage.

"The delegation believes that there can be no solution of the Nagaland except within the Indian Union"

### DEVELOPMENT PROGRAMME IN THIRD PLAN

An out-lay of Rs. 7·25 crores had been approved for the Third Five Year Plan subject to the increase of allocations from year to year based on the actual performance. By the end of the financial year 1965-66 the actual expenditure under Plan scheme may come to Rs. 1,120 lakhs.

The Union Territory of Pondicherry is directly administered by the Government of India through a Lieutenant Governor appointed by the Government of India and a Ministry consisting of one Chief Minister and three Ministers.

Elections for 39 seats in the State Representative Assembly took place on August 10, 1959 and the Assembly became a full-fledged Legislature since 1st July 1963.

The first general election in Pondicherry after the "dejure" transfer, electing a 30-member Assembly replacing the 39-member House, took place on Aug. 23, 1964. The congress won the majority and formed the Government. For details about the election, see under "Late Particulars".

The Municipal Administration in the State is carried out by the Municipal Councils, one in each of the sixteen communes. Elections for the Municipal Councils were last held in 1961.

Chandernagore in West Bengal was the first French India possession to become *de jure* a part of the Indian Union after the treaty for its cession was signed in Paris in 1951 by the representatives of the two Governments. The treaty was ratified by the French Assembly on April 11, 1952.

## POPULATION

For more details about population see under "Population".

## REGIONS

In the Zonal Division the Punjab falls within the northern Zone, comprising the States of Punjab, Rajasthan and Jammu and Kashmir and the Union territories of Delhi and Himachal Pradesh.

For the more convenient transaction of business with regard to some specified matters, the State is divided into two regions, the Punjabi-speaking and the Hindi-speaking regions.

The Hindi region consists of the districts of Kulu, Kangra, Simla, Karnal, Rohtak, Gurgaon, Hissar, Mohindergarh, Ambala district, excluding the Rupar and Chandigarh Assembly constituencies, Jind and Narwana tehsils of Sangrur district.

The Punjabi region consists of the districts of Gurdaspur, Amritsar, Bhatinda, Jullundur, Hoshiarpur, Ferozepur, Ludhiana, Kapurthala, the Rupar and Chandigarh Assembly constituencies in Ambala district, Patiala district and Sangrur district, excluding the Jind and Narwana tehsils.

The Chandigarh capital project will not form part of either of the two regions. So long, however, as it does not become a full-fledged constituency on a population basis, its representative will sit in the Regional Committee for the Punjabi region.

For each region there is a regional committee of the State Assembly consisting of the members of the State Assembly belonging to that region including the Ministers from the region but not including the Chief Minister.

The Regional Committees have been empowered to make proposals with regard to questions of general policy not involving any financial commitments other than expenditure of a routine and incidental character.

The advice tendered by the regional committees will normally be accepted by the Government and the State Legislature. In case of difference of opinion, reference will be made to the Governor whose decision will be final and binding.

The regional committees will deal with the following matters : (*i*) Development and economic planning, within the framework of the general development plans and policies formulated by the State Legislature; (*ii*) Local Self-Government, that is to say, the constitutional powers of municipal corporations, improvement trusts, district boards and other local authorities for the purpose of local self-Government or village administration including "Panchayats"; (*iii*) Public health and sanitation, local hospitals and dispensaries ; (*iv*) Primary and secondary education ; (*v*) Agriculture ; (*vi*) Cottage and small-scale industries ; (*vii*) Preservation, protection and improvement of stock and prevention of animal diseases, veterinary training and practice ; (*viii*) Pounds and prevention of cattle trespass ; (*ix*) Protection of wild animals and birds ; (*x*) Fisheries ; (*xi*) Inns and Inn-keepers ; (*xii*) Markets and fairs ; (*xiii*) Co-operative Societies and (*xiv*) Charities and charitable institutions, charitable and religious endowments and religious institutions.

*Language Policy :* The Sachar formula will continue to operate in the area comprised in the former Punjab State ; and in the area comprised in the former PEPSU State, the existing arrangements will continue until they are replaced or altered by agreement later.

The official language of each region, at the district level and below, is the respective regional language.

The State is bi-lingual recognising both Punjabi (in Gurmukhi script) and Hindi (in Devnagri script) as the official languages of the State.

Hindi or Punjabi (as the case may be) will be the medium of instruction in all schools in its region upto the matriculation standard and the other language shall be taught as a compulsory language from the last class of the primary department upto the matriculation stage and in the case of girls in the girls' schools in the middle classes only.

The State Government in consultation with the Punjab High Court has decided to introduce Hindi in the Hindi region and Punjabi in the Punjabi region as court language up to the district level with effect from October 2, 1962.

## INDUSTRIES

The total number of registered factories on 31st March 1964 was 4,735.

No. of workers engaged in these factories: 1,32,392.

Some of the main industries in Punjab are textile, hosiery, sports, cycles and cycle parts, sewing machines, cement, sugar, starch factories, non-ferrous metals, resin and turpentine, scientific instruments, paper and wool spinning and weaving units and machine tools.

Products of important industries in the State on March 31, 1963 :—cotton textiles 832 lakh yards ; woollen textiles Rs. 19·3 crores ; power-looms weaving Rs. 1,928 lakhs ; hosiery Rs. 791 lakhs ; machine embroidery Rs. 1·25 crores ; machine tools and agricultural implements Rs. 1,328 lakhs ; bicycles 5,47,382 (Nos.) ; sewing machines 84,246 (Nos.) ; wood and machine screws Rs. 84,44,000 ; steel rolling 1,25,112 tonnes ; non-ferrous metal Rs. 825 lakhs ; sports goods Rs. 153·20 lakhs ; sugar 67,958 tonnes ; glass Rs. 112·45 lakhs ; paper 39,738 tonnes ; scientific instruments Rs. 130·57 lakhs ; cotton ginning and pressing 11,10,000 bales ; water pipe fittings Rs. 306·93 lakhs ; cement 6,34,603 tonnes.

The third machine tool factory in the public sector went into production in Oct. 1963. Its foundry was commissioned in 1965. A steel casting plant, a seamless steel tubes unit and a pig iron plant are in the process of being set up in the public sector. A pig-iron plant with an investment of about Rs. 5 crores for the exploitation of iron ore available in the backward district of Mahendragarh is also proposed to be set up in the public sector.

In the private recognised sector, the expansion has been even more pronounced. The Government of India granted 43 licences for the establishment of new undertakings during 1964-65. The total number of industrial licences so far (July 1965) granted to the State comes to about 675.

## AGRICULTURE

The total area of the Punjab, according to village records pertaining to the Agricultural year 1963-64 is 3,03,10,000 acres as per details given below :—

Area under Forests : 9,00,000 acres ; Area not available for cultivation : 81,49,000 acres ; Cultivable waste other than current fallows : 12,70,000 acres ; Current fallows : 11,87,000 acres.

Net area sown : 1,88,03,000 acres.

(*a*) Irrigated : 83,84,000 acres ; (*b*) Unirrigated 1,04,19,000 acres.

The total area (acres) under irrigation during the year 1963-64 :—

By Govt. canals : 54,33,000 By private canals : 1,18,000 ; By tanks : 23,000 ; By wells : 25,75,000 By Other sources : 2,35,000 ; Total (net) : 83,84,000.

In the matter of food production, Punjab is the second largest wheat and gram producing area in the Union, third in barley and maize, fourth in bajra and sugarcane, while it produces considerable quantities of jowar, cotton, rice, rape, mustard and small quantities of tea, tobacco, groundnut and linseed. The production of cotton in the Punjab amounts to one-fifth of the total production of the country.

During the year 1963-64 the Punjab's production of foodgrains reached 59,97,000 tonnes and oilseeds 2,99,000 tonnes as against the targets of production of foodgrains of 81,70,000 tonnes and oilseeds 3,25,000 tonnes for the Third Five Year Plan. The State produced 8,79,000 tonnes of sugar and 11,65,000 bales of cotton in the year 1963-64 as against the Third Plan target of 9,00,000 tonnes of sugar and 12,50,000 bales of cotton.

Area and Production of Principal Crops (1963–64) :

Besides a degree college in agriculture, there is an Agricultural Institute at Ludhiana and a number of research stations at important places in the State for imparting education in Agriculture. An Agricultural University has already been established and another Agricultural College has been set up at Hissar. The State Government has allocated sufficient funds for creation of green belts against the advancing deserts from Rajasthan.

In addition to the 28 co-operative garden colonies, there are at present 1,225 co-operative farming societies in the State. The State Government has set up 15 Land Mortgage Banks with its branches in all the districts for the benefit of farmers. The Banks advance long-term loans.

Crop Insurance in the State has been introduced on an experimental basis. To begin with the insurance covers four main crops namely wheat, gram, cotton and sugar cane in six centres each comprising a National Extension Service Block.

### Animal Husbandry

*Live-stock census* 1961 : Number of animals in the State : 1,32,42,600 ; cattle other than buffaloes : 88,17,400 ; buffaloes : 44,25,200 ; sheep : 88,17,400 ; goats : 12,27,800 ; horses and ponies : 76,100.

On March 31, 1964 number of regular veterinary hospitals 325 ; permanent outlying dispensaries 322 ; ordinary outlying dispensaries 703. Besides, there are 44 artificial insemination centres, 7 sheep demonstration and 21 poultry extension centres, 32 gowshalas and seven gowsadans. There are 241 key village units.

There is a Government Institute at Hissar for the manufacture of biological products. The Government livestock farm at Hissar, the biggest in Asia, maintains about 1,500 heads of livestock including buffaloes, sheep, donkeys, goats etc. for breeding purposes. In this farm the famous Hariana breed of cattle is scientifically raised.

### Community Development Blocks (March 31, 1964)

The number of C. D. Blocks of all types functioning in the State on March 31, 1964 was 228. They covered 21,670 villages inhabited by 130·68 lakh people spread over an area of 45,420 square miles.

### Agrarian Reforms

Out of the total area of 225·50 lakh acres planned to be consolidated in the State under the Punjab Security of Land Tenure Act, 1953 and the Pepsu Tenancy and the Agricultural Lands Act, 1955, an area measuring 147·22 lakh acres was consolidated by the end of Second Five Year Plan, leaving a balance of 78·28 lakh acres. Out of this, an area of 62·43 lakh acres was consolidated during the first three years of the Third Plan period leaving a balance of 15·85 lakh acres. Of this 8·10 lakh acres was proposed to be consolidated during 1964-65 and the remaining 7·75 lakh acres during 1965-66.

It is estimated that a total of 4·50 lakh standard acres of land would be available for the resettlement of about two lakh landless agricultural workers and ejected tenants who are eligible under the law cited above. The surplus land available for immediate allotment on Dec. 1, 1964 was 3,66,042 standard acres. Of this, 1,33,284 standard acres was allotted to 70,414 tenants during 1963-64. This includes an area of 26,082 standard acres allotted to 11,458 Harijan tenants.

Under the programme for conferment of proprietory rights on tenants, 20,229 tenants acquired proprietory rights over an area of 1,32,855 standard acres upto the end of Dec. 1964.

In pursuance of its policy to utilise every inch of available cultivable land for growing more food and other essential crops, the State Government enforced the East Punjab Utilisation of Land Act, 1949, under which a notice is served on every landowner who allows his land to remain uncultivated for six or more consecutive harvests and the land thus taken over is leased out to cultivators for a term ranging from 7 to 20 years, priority being given to Harijans. Under the provision of this act, possession of 1,21,816 acres of land was taken over upto the end of November, 1964. Of this 1,16,917 acres were leased out. This included 79,286 acres leased out to 8,123 Harijans and eight Harijan cooperative societies.

Scheme for the resettlement of landless agricultural workers has also been prepared and included in the Third Five Year Plan. It is estimated that under the scheme, land to the extent of 1,25,000 acres will be acquired and leased out to about 12,500 landless Harijans at the rate of 10 acres for each settler. During the first two and a half years of the Third Plan 21,855 ordinary acres of land were leased out to 4,874 Harijans. Upto the end of Dec. 1963, 3,270 ordinary acres of land were leased out to six Harijan Co-operative Societies, 73,386 ordinary acres were leased to 9,202 Harijans and 20,053 ordinary acres to 554 persons other than Harijans. A sum of Rs. 1,80,000 has been distributed amongst Harijans so far (July 1964) in the form of loan for irrigation facilities. The total cost of the scheme during the Third Plan is estimated at Rs. 4,50,000 out of which a sum of Rs. 1,00,000 was provided during 1963-64 and a provision of Rs. 77,000 has been made for 1964-65.

There is another scheme in operation which is for the benefit of landless eligible tenants who were settled on land outside their own villages. Each such tenant is now entitled to an aid of Rs. 750 (Rs. 562·50 as subsidy and Rs. 187·50 as loan) which he can utilise for construction of his house or reclamation of his land. This concession has also been extended to the persons to be settled on Bhoodan land. A sum of Rs. 3·83 lakhs has been disbursed to the landless so far (March, 1965). The total cost of the scheme during the Third Plan is estimated at Rs. 9·65 lakhs out of which a sum of Rs. three lakhs was provided for 1964-65 and a sum of Rs. 3·50 lakhs for 1965-66.

### Irrigation

Gross area irrigated inclusive of areas irrigated by tube-wells on March 31, 1964 was 1,07,03,000 acres. Net area irrigated during the year was 83,84,000 acres.

The construction of the 740-foot-high Bhakra Dam was completed during 1963-64 and dedicated to the nation by the late Prime Minister, Mr. Nehru on October 22, 1963. Works relating to grouting and drainage of foundations and grouting of transverse joints, however, continued on the project during 1964-65 to ensure ultimate structural stability of the dam for full reservoir loads.

During 1964-65, the Bhakra reservoir was raised to the level of 1,661·60 feet storing 46·77 lakh acres feet of usable water as against a level of 1,640 feet with an usable storage of 41·02 lakh acre feet during 1963-64. During 1963-64, 25·59 lakh acres of land was irrigated with Bhakra water.

All the five units of 90,000 kW each of the Bhakra left bank power house are functioning. The work on the right bank power house which will have five units of 1,20,000 kW each is in full swing and proceeding according to schedule. The first unit is expected to be commissioned during the first quarter of 1966.

The total cost of Bhakra Dam (excluding the cost of civil works of power plants) as per latest project estimate of 1963 is Rs. 5,921·06 lakhs against which an expenditure of Rs. 6,255·32 lakhs had been incurred till end of Aug. 1964. The expenditure is more than the project estimate on account of the fact that credit for sale of surplus machinery and stores have yet to be received and accounted for.

Other works connected with the project include a diversion dam at Nanga I, 108 miles long Bhakra main line canal and a vast network of 31,000 miles long canals and distributaries. The project—the longest multi-purpose project in Asia—will irrigate 6·7 million acres of new land. The States to be benefited are Punjab, Rajasthan, Delhi, Himachal Pradesh and Jammu and Kashmir.

As a result of the project, the sugar will be increased by five lakh tons, of pulses and oilseeds by one lakh tons, of foodgrains by 11·3 lakh tons and of cotton by eight lakh bales.

Another project of the same magnitude namely the Beas Project in Punjab is being jointly executed by the Rajasthan and Punjab Governments with the financial assistance of the Central Government.

The main object of the project, which is estimated to cost Rs. 208 crores, is to harness the water and power potential of the Beas whose 250-mile course from Rohtang Pass to its confluence with the Sutlej at Harike lies in Indian territory. Of the river's total run of (13·6 million acre feet of water) about 11·4 million acre feet not only goes waste but causes devastation on large scale.

On completion, the project will facilitate the irrigation of 4·5 million acres of land in Punjab and Rajasthan and generate 6,36,000 kW. of power, besides augmenting the capacity of the Bhakra power plant by 1,48,000 kW. The irrigation and power facilities to be provided by the project will lead to an additional industrial and agricultural output worth Rs. 100 crores a year. Rajasthan alone will get eight million acre feet of water for irrigating about 3·5 million acres of desert land.

The project comprises two units : Beas-Sutlej Link is predominently a power project and Beas Dam at Pong an irrigation project.

The first unit of the project, estimated to cost Rs. 97 crores, consists of a 200-feet rockfill diversion dam at Pandoh, 12 miles upstream of Mandi in Himachal Pradesh, an eight-mile long tunnel with a diameter of 25 feet from pandoh to Baggi, a 7·2-mile Hydel channel from Baggi to Sunder Nagar and finally a 8·5-mile long tunnel with a diameter of 25 feet from Sunder Nagar to the penstocks leading to the Sutlej power house at Slapar, headworks of Gobindsagar.

Provision has been made for diverting the flow into Gobindsagar through a by-pass tunnel even before the Sutlej Power House is completed at the tail end of the link for augmenting the Bhakra power output.

Excavation work has started for the intake structure of the Pandoh-Baggi tunnel. An approach tunnel is also under construction. Nearly 900 feet of "mucking" has already been finished. The main tunnel is already under construction.

Work on downstream excavation for a portal of the Pandoh-Baggi tunnel as also on a surge shaft at the downstream end of the Sundernagar-Sutlej tunnel near Slapar is in progress. All building material is being transported to the site from Nangal through Gobindsagar, effecting an economy of Rs. 20 lakhs on freight.

The Beas dam at Pong is estimated to cost Rs. 111 crores. The project envisages the construction of a 5,750 feet long and 380 feet high rockfill dam. It will create a reservoir impounding 6·5 million acre feet of water over an area of about 100 square miles.

Construction of the dam involves diversion of the river through five tunnels with a diameter of 30 feet. Excavation work on two of these tunnels has been completed. They will be permanently used as outlet tunnels for irrigation purposes. The three other tunnels, which are nearing completion, will afterwards be used for generating electricity through six units to be installed in a power house on the left bank.

The aggregate length of the five tunnels is over 16,000 feet. The flow of water through the tunnels is proposed to be regulated with the help of hydraulic gates. The tunnels were scheduled to be completed by the end of Sept. 1965 and the foundation of the dam was likely to be laid in October or November 1965.

## ELECTRIC POWER

At the end of the year 1964-1965 total installed generating capacity in the State was 686,707 kW.

The main sources of electric supply in the State are :—(1) Uhl River Hydro-Electric Scheme at Joginder Nagar with four sets of 12,000 kWs. each including one stand-by, i.e., 36,000 kWs. capacity. Another Power House with an installed capacity of 40,000 kWs. is being set up to utilise tail water. (2) Ganguwal Power House with three generating units (two of 24,000 kWs. each and one of 29,000 kWs.). The first two units of 24,000 kWs. each started working in 1955. The third one was commissioned in December 1961. (3) Kotla Power House with three generating units (two of 24,000 kWs. each and one of 29,000 kWs.). The first two units of 24,000 kWs. each started working in 1956 while the third one was commissioned in July 1961. (4) Bhakra Dam Left Bank Power House with five generating units of 90,000 kWs. each. All the five units are working in full. The first unit was commissioned into service in November 1960, second in February 1961, the third in July 1961, the fourth in November 1961 and the fifth in December 1961. (5) Bhakra Dam Right Bank Power House with four generating units of 120,000 kWs. each. This Power House will start working in 1966-67. The fifth unit will be added in 1968 when water supply of the Bhakra Reservoir gets augmented from the Beas Sutlej Link. (6) Power Houses on Upper Bari Doab Western Jamuna Canals : three to four Power Houses with a capacity of 40,000 kWs. are being set up in the Third Plan. (7) Thermal Plant at Delhi with a capacity of 50,000 kWs. This steam propelled Plant is being set up to meet the shortage of supply from Bhakra. (8) Diesel Generating sets at Industrial Centres with a capacity of about 25,000 kWs. These small sets are being set up to meet the shortage of hydro-electric supply. (9) Beas Project Power Houses : two Power Houses, one each with a firm capacity of 600,000 Kws. and 200,000 kWs., will be installed at Dehar on Sutlej Beas Link and at Pong on river Beas respectively. There is a provision of Rs. 9 crores in the Third Plan for the purpose.

Proposals to be implemented during the Third Plan period include setting up of 3 power houses on Upper Bari Doab Canal with a capacity of 40,000 kW each, thermal plant at Delhi with a capacity of 50,000 kW with a view to meeting the shortage of power supply from Bhakra, diesel generating sets at the various industrial centres with a capacity of 25,000 kW each, two Beas Project power houses with a firm capacity of six lakh and two lakh tons at Dehar on Sutlej Beas Link and at Pong on the river Beas respectively.

Provision of electricity, particularly in the rural areas for industrial and domestic uses is one of the main items of the development programmes in Punjab. Electricity has already been made available to more than 6,48,542 consumers including 4,69,047 domestic, 1,42,517 commercial and 17,466 tube-wells (upto Dec. 1964).

Progress of electrification in the State upto December 1964 was as follows : Towns and villages electrified 5,062. This figure will go up to 9,000 at the end of the Third Plan period. Per capita consumption of electricity in the State has risen 87·02 kW in the industrial, 4·60 in commercial and 5·29 in domestic sectors.

*Punjab Electricity Board :* State Electricity Boards were set up in Punjab and Rajasthan following an agreement between the States on the terms of partnership relating to the irrigation and power wings of the Bhakra Nangal Project.

The entire assets and liabilities of all government electrical undertakings in Punjab including the Bhakra and allied power projects were passed on to the Punjab Electricity Board.

Except for policy directions from the Ministry, the day-to-day working of State Electricity undertakings shall be administered by the Board.

The Government has also resolved to gradually nationalise all private electricity ventures by paying compensation.

## TRANSPORT

There are about 7,097 miles of metalled road in the Punjab. Government has taken over 50 per cent of all pucca routes, leaving 50 per cent to private operators. The scheme has been enforced in pursuance of an agreement between private operators and State Transport Department in 1959. The Government's monopoly will, however, continue on the Karnal-Ambala, Jullundur-Amritsar and Ferozepore-Fazilka routes. The Agreement will last ten years. With a view to progressive nationalisation of the road transport in the State, a provision has been made in the Third Plan for the expansion of route mileage covered by the State Transport System. The Scheme envisages the commissioning of 141 more vehicles with a total investment of Rs. 60 lakhs.

There are at present 1,067 buses operating on 442 routes in the State covering 3,39,71,670 miles per annum. The capital investment in the year 1964-65 was Rs. 3,17,69,755 and the profit earned during the year was Rs. 85,08,509.

The capital is linked with New Delhi by Air. The I.A.C. runs a daily service between Delhi and Kulu via Chandigarh during summer months.

A tripartite corporation called the Mandi-Kulu Road Transport Corporation with the Railways, the Himachal Pradesh and the Punjab Government as partners has come into being to operate in the Mandi Kulu Area.

## LABOUR

Number of registered factories in the State : 4,753.

Number of workers working in these factories : 1,32,392.

Employees' Provident Fund Scheme has also been enforced in the State. Employees' State Insurance Scheme which was enforced in 1963 now covers 78,000 workers in 25 towns.

The Punjab Government has enacted legislation known as Commercial Establishments Act. The Act confers on shop assistants and workers in all commercial establishments including news paper and news agency offices statutory rights with respect to earned leave, weekly holiday, minimum working hours etc. Workers in all commercial establishments will not be required to work for more than ten hours a day with two hours' rest in the afternoon.

## EDUCATION

Number of students (boys and girls) receiving education in schools and colleges at the end of 1964 : 28,91,833 ; Total Number of Institutions in the rural areas : 15,750 ; Total Number of literates (1961 Census) 4,815,000 ; (Men : 3,524,000 ; Women : 1,291,000). Percentage of literacy—Men : 32·4 ; Women : 19·2.

A sum of Rs. 1,825·35 lakh will be spent during the Third Plan period on general education.

As against this, an expenditure of Rs. 1,306·43 lakhs was estimated to be incurred upto 1964-65 leaving a balance of Rs. 518·92 lakhs which has been earmarked for 1965-66.

Free and compulsory primary education was introduced for the children of age group 6-7, 7-8, 8-9 and 9-10 during 1961-62, 62-63, 63-64 and 1964-65 respectively. So far (July 1965) 15,034 teachers have been sanctioned under the scheme. The additional enrolment upto 1964-65 was 10,97,000.

Promotion of education among scheduled castes and backward classes is also receiving special attention side by side. There are 20 schools for the benefit of erstwhile criminal tribes as well as 40 primary and five middle schools for the backward areas of Lahaul and Spiti apart from a high school at Keylong. All school-going children in this area get stipends.

## HEALTH

The Third Plan envisages an outlay of Rs. 1,017·50 lakhs. The expenditure incurred during 1964-65 was Rs. 616 lakhs.

Number of hospitals and public health centres and dispensaries (March 1964) : 868 ; Primary Health Centres : 216 ; Ayurvedic dispensaries: 416; Family Welfare Clinics : 206 ; Maternity and Child welfare centres : 135 ; T. B. Hospitals and clinics : 23 ; Mental Hospital : 1 ; Dental hospital and clinics : 21 ; Leprosy hospitals : 4 ; Leprosy dispensaries : 37 ; V. D. hospital and dispensaries : 5.

The number of beds in the hospitals : 14,321.

During the year 1963, 84,39,732 patients were treated in these hospitals and dispensaries.

A sum of Rs. 13·10 crores has been provided for health and medical schemes in the Third Plan. It envisages the opening of 75 primary health centres, two dental clinics, 150 family planning clinics, 10 dispensaries, 55 Ayurvedic dispensaries, increase of 100 seats in the three medical colleges run by the State at Amritsar, Patiala and Rohtak, 25 in the post-graduate training institute recently set up at Chandigarh.

## CO-OPERATION

At the end of the co-operative year (30th June) 1964 with the registration of 1,285 new societies during the year, the number of societies had gone up to 30,587. The broad break-up is as follows :—

State Central banks and banking unions 44 ; Agricultural societies 19,801 ; Non-agricultural societies 2,211 ; Land Mortgage banks 15 ; Marketing and procession societies 228 ; Housing societies 308 ; Farming societies 1,225 ; Industrial societies 5,658 ; and others 10,892. Besides societies for the supply of sugarcane and milk, there are 331 consumer societies and 1,035 weavers societies.

The membership of these societies has increased to 25,94,000 and working capital to Rs. 115·30 crores inclusive of Rs. 40·57 crores of industrial co-operatives. Ninety-nine per cent of villages have been covered by one or other form of co-operatives. The percentage of population covered was 61 at the end of 1964-65 as against 56·6 at the end of 1962-63. Out of nearly 21,269 villages, as many as 21,004 had been covered leaving behind 265 villages to be brought within the fold of co-operatives.

The main features of the Third Plan are expansion of credit or raising agricultural production, processing and marketing, distribution of consumer articles through consumer stores in towns and cities and through village co-operatives in the rural areas, economic improvement of the weaker section by providing outright grants.

In the Third Plan, a sum of Rs. 4·50 crores has been assigned for co-operative development. Besides this, Reserve Bank of India is also providing huge sums to the State Government for participation in the share capital of the credit institutions.

### PANCHAYATS

The Panchayat Raj was inaugurated in the State by the late Prime Minister, Mr. Nehru on October 2, 1962. The entire State except Lahaul and Spiti has been delimited into 222 development blocks including shadow blocks. The third general elections to all panchayats in the State were held during 1963-64.

The Third Plan provision on panchayats includes a sum of Rs. 112·40 lakhs mainly for providing financial assistance to panchayats for expenditure on revenue earning schemes, construction of Panchayat Bhawan at Chandigarh, construction of office buildings for Panchayat Samitis, training of panchayat secretaries and opening of panchayati raj training centres. Central assistance of Rs. 27·60 lakhs and panchayat contribution of Rs. 2·75 lakhs are further provided in the Plan.

### JUDICIARY

The separation of the judiciary from the executive was formally inaugurated by the Chief Justice of India on Oct. 2, 1964.

### THIRD FIVE-YEAR PLAN

The State has embarked upon an all-embracing Third Plan covering every aspect of governmental activity. It is a bigger and a bolder programme of solid work for the prosperity and Social well-being of the 20 million people of the State. The Plan is estimated to cost Rs. 231·38 crores and its main highlights include the Beas Multi-purpose project, phased introduction of free and compulsory primary education, promotion of industrialisation in rural areas, setting up of a number of heavy industries including factories and mills for the manufacture of cement, newsprint, sugar and textiles, introduction of crop insurance and extensive increase in the production of food and cash crops.

The Third Plan period will also see the completion of the Bhakra Multipurpose Project, the consolidation of fragmentary land holdings all over the State, the coverage of the entire State by the community development programme and the full-scale usherance of Panchayati Raj.

Following is the break-up of allocations under different main heads in Rs. crores :—Agriculture : 46·42 ; Irrigation and Power : 104·69 ; Industries : 14·40 ; Transport and Communications :12·82 ; Social Services (Education, Health, etc.) : 46·25.

Roughly 1,500 miles of new roads will be constructed in the State during the next five years. The Plan provides a total outlay of Rs. 12 crores for roads, old and new. Old roads will be widened and reconditioned, new roads will serve to approach towns, railway stations and religious places. Hill areas in the State will receive special attention in the matter of planning and development. A provision of Rs. 22·5 crores has been made for the development works in the hill areas. A high-level committee has been constituted to draw and implement schemes for the development of these areas.

## SHIROMANI GURDWARA PARBANDHAK COMMITTEE, AMRITSAR

(Teja Singh Samundri Hall, Amritsar.)

The Shiromani Gurdwara Parbandhak Committee is constituted under the provisions of the Sikh Gurdwaras Act, 1925 (Punjab Act VIII of 1925). It consists of :

(*i*) 140 elected members ;

(*ii*) Head Priests of Golden Temple, Amritsar and the following four Takhats (*a*) Akal Takhat Sahib, Amritsar ; (*b*) Takhat Keshgarh Sahib, Anandpur ; (*c*) Takhat Patna Sahib, Patna ; and (*d*) Takhat Hazur Sahib, Nanded (Maharashtra) and

(*iii*) Fifteen members resident in India of whom at least ten are residents of the States other than the Punjab State co-opted by the members of the S.G.P.C., as described in clauses (*i*) and (*ii*).

Every Sikh man or woman, more than 21 years of age, who resides in the Punjab is entitled to have his name registered on the electoral roll of a constituency formed for the election of a member or members of the board provided he does not trim or shave his beard or Keshas except in case of Sehajdhari Sikh and does not smoke or take alcoholic drinks. Every voter is eligible for election provided he is not of unsound mind, is not an undischarged insolvent, is not an apostate from the Sikh religion, does not take alcoholic drinks, is not a Minister of a Notified Sikh Gurdwara, other than mentioned above in clause (*ii*), is not a paid servant of any Notified Sikh Gurdwara, being a Keshadhari Sikh is not an Amritdhari and can read and write Gurmukhi.

Elections to the Shiromani Gurdwara Parbandhak Committee are held every five years. Dates for the elections are fixed by the State Government and the preparation of electoral rolls and other arrangements are also made by the State Government.

The Shiromani Gurdwara Parbandhak Committee directly manages ten of the most important and historic Gurdwaras situated within the Punjab State. The historic Gurdwara at Nankana Sahib (West Pakistan) is also managed by the S.G.P.C. directly. A sikh Manager and 20 Sikh Sewadars are permanently stationed there.

All other historic Gurdwaras are administered by local committees consisting of five members, of whom four are elected by voters of the constituency concerned and one member is nominated by the S.G.P.C. One of these members must belong to a backward class. The S.G.P.C. supervises the affairs of all these Gurdwaras through a team of Gurdwara Inspectors who visit the shrines regularly every month.

A Judicial Commission is also constituted under the provisions of the Sikh Gurdwaras Act to settle disputes regarding the management of the Gurdwaras. This commission has the same powers as are vested in a Court by the Code of Civil Procedure, and the Commission has unlimited jurisdiction as regards the value of the suits throughout the Punjab.

Under the provisions of the Sikh Gurdwaras Act, the S.G.P.C. and the Gurdwaras under its control and supervision can spend their funds for religious, charitable, educational or industrial purposes and also for such non-political purposes as are connected with the general uplift and welfare of the Sikhs. Its accounts are annually audited by the Auditors appointed by the State Government.

In the last Gurdwara elections held on Jan. 17, 1965, out of 138 members elected 101 members were elected on the Shiromani Akali Dal (Sant Fateh Singh's) ticket and 37 on the Master Tara Singh group ticket.

The total strength of the S.G.P.C. is 160.

At the first General Meeting of the S.G.P.C. held on 13th March, 1965, Sant Charan Singh was elected President, S.G.P.C. unanimously. The other office-bearers and the members of the Executive Committee as also the Dharam Parchar Committee and Sikh History Research Board were also elected unanimously.

The S.G.P.C. manages about 700 Gurdwaras in the Punjab.

The S.G.P.C. also run Arts, Science and Engineering Colleges. They are : Guru Nanak Khalsa College, Matunga, Bombay ; Guru Nanak Engineering College, Ludhiana ; Mata Gijri College, Fategharh Sahib, Sirhind (Patiala) ; Guru Kaushi Khalsa College, Damdama Sahib, Saboki Talwandi (Bhatinda) and several high schools, hospitals and libraries.

## BUDGET FOR 1965-66

(*See under 'State Budgets'*).

## MINERALS

Rajasthan is an important mineral and building material producing State. It ranks next to Bihar in Mica which is chiefly found in Ajmer, Udaipur, Bhilwara and Jaipur Districts. Over a lakh persons have been employed in the State mining industry.

The chief non-metallic minerals are Silica sand, Felspar, Asbestos, Barytes, Clays, Emerald, Fuller's earth, Bentonite, etc. The metallic minerals are lead, zinc, iron ore and manganese ore. The State is the sole supplier of gypsum for fertiliser manufacture to Sindri plant.

Lignite (coal) is mined near Palana in Bikaner District. There are vast deposits of high quality building stones such as marbles, sandstones and limestones. Limestone is used for the manufacture of cement at Lakheri and Sawai Madhopur and for lime at a number of places. Marble quarries at Makrana in Nagaur District are famous for building stone.

Large resources of sodium sulphate and salt also occur at Deedwana and Sambhar lake. Uranium deposits have been found at Umra and Udaisagar in Udaipur District.

Production in thousand metric tonnes of some important minerals in 1963: Coal (lignite) 4·5; *Metallic Minerals* :—(*a*) Ferrous: (1) Iron ore 67·1; (2) Manganese ore N.A. (*b*) Non-Ferrous :—(1) Lead concentrate 5·9; (2) Zinc concentrate 10·6. *Minerals* :—Asbestos 2·2; Barytes 5·5; Calcite 5·3; Emerald (Crude) 0·008; Felspar 12·5; Garnet 0·42; Glass sand 34·1; Graphite 0·05; Gypsum 1,075·8; Lime stone (for cement making) 1,737·6; Mica (Crude) 6·8; Quartz 9·2; Salenite 1·72; Soap stone 101·5; White clay 7·1; Yellow Ochre 0·33. *Building Materials* :—Building stone (including Kankar, Bajri and Sandstone etc.), 4,753·5; Lime stone (for lime making) 469·3; Marble 41·8; Bentonite 5·0; Fuller's earth 8·9; Brick earth and ordinary clay 1,126·3.

(N.A.—Not available).

Mineral production in the State has registered a rise during 1964. The State produced minerals worth Rs. 8 crores during the year.

*Production* (1964): Gypsum 7,50,000 tons (about 90 per cent of the country); Soap stone 1,11,600 (about 85 per cent of the country); felspar 12,000 tons; quartz 8,000 tons; calcite 4,000 tons; asbestos 2,000 tons and glass sand 40,000 tons.

## INDUSTRIES

Amongst the large-scale industries in the State mention may be made of cotton textiles (11 units), cement (2 units), glass (1 unit), sugar (2 units), ball-bearings (1 unit) and electric metres (1 unit). The industrial production of some commodities during 1963 was as under :—

Cloth—lakh kg. 81 (560 lakh meters); Yarn—lakh kg. 206; Glass—metric tonnes 552; Cement—lakh metric tonnes 11·9; Salt—lakh metric tonnes 4·3; Ball bearing—'000 numbers 4,152·8; Sugar—'000 metric tonnes 13·7; Foreign spirit—'000 litres 619·5; Rectified spirit—'000 litres 1,683·9; Denatured spirit—'000 litres 199·8; Country spirit—'000 litres 2,632·0.

The most important cottage and small-scale industries are Tie and Dye Fabrics, Gota Kinar wooden toys, Handmade paper, Papier Mache toys, Gem cutting, cloth printing, manufacture of agricultural tools and implements, Embroidered shoes (Jutiyan) and leather bags, water bottles (Badlas) and handloom weaving. From the point of view of employment, khadi and village industries also play an important role in this State.

## AGRICULTURE

*Land Utilisation* : According to land utilisation statistics for the year ending June 1963, the total geographical area of the State was 33,986 thousand hectares, comprising 852 thousand hectares under forests, 6,262 thousand hectares not available for cultivation, 8,270 thousand hectares uncultivated land, 4,681 thousand hectares of fallow land and 13,821 thousand hectares net area sown. The total cropped area was 14,833 thousand hectares, the area sown more than once being 1,012 thousand hectares only.

*Agricultural Production* : Constant efforts are being made to increase the volume of agricultural production through the introduction of various development schemes, so as to bring out maximum produce of both the food and non-food crops.

Main Food Crops of the State: Cereals—Bajra, Jowar, Wheat, Maize, Barley, Small millets, Rice; Pulses: Gram, Tur, other Rabi pulses, other Kharif pulses.

Main cash crops of the State: Oilseeds: Sesamum, Rape and Mustard, Linseed, Groundnut, Cotton, Sugarcane, Tobacco, Chillies, Potatoes.

Area and production of principal food crops in '000 Hectares and Metric tonnes for the year 1963-64 respectively are as follows :—

*Cereals* : Bajra 4,326; 821; Jowar 1,030; 273; Wheat 1,122; 860; Maize 670; 610; Barley 418; 441; Small millets 72; 28; Rice 113; 277.

*Pulses* : Gram 1,504; 528; Tur 24; 9; Other Rabi Pulses 15; 8; Other Kharif Pulses 1,624; 277.

*Oilseeds* : Sesamum 483; 99; Rape and Mustard 314; 45; Linseed 121; 29; Groundnut 193; 94.

*Others* : Cotton 258; 184; Sugar cane 30; 642; Tobacco 6; 4; Chillies 31; 16; Potatoes 2; 5.

*Fish*: Variety of fish produced: There are large numbers of tanks, lakes and rivers in which inland fishes are found. The main species are the major carps, *viz.* Rohu, Migal, Kalbasu and Katla; Minor carps, *viz.* Mahaseer; Cat Fishes: Launchi and Seenghara; Live Fish: Sol, Magur and Singhi.

Rajasthan has vast potentialities for the development of pisciculture. It was envisaged to establish eight fish farms for demonstration and to collect and distribute 150 lakh fish seeds, besides establishing 20 fish nurseries and four ice plants during the Third Five Year Plan. During the year 1963-64, four lakh fish seeds were produced and distributed to the private pisciculturists against the stipulated target of 30 lakh fish seeds and an area of 211 acres was covered under this programme thereby bringing the total area covered in the State till the end of the year to 2,123 acres.

The State Government earned an income of Rs. 5·5 lakhs through these schemes during 1963-64.

**The Central Mechanised Farm, Suratgarh as in May 1963**: 30,000-acre Central Mechanised Farm at Suratgarh getting non-perennial supply from Bhakra Canal System, is growing mainly food crops like Wheat, Jowar, Paddy, Barley, Gram, Maize and Bajra. In addition to this, large areas are also put under cash crops, viz. oilseeds (mainly Mustard), Cotton and Sugarcane. Although the Farm is annually invaded by floods and the scope of cash crops like cotton is limited, the out-turn of these crops on perennial irrigation (only 15 cusecs being available) is encouraging. Highest yields of 1,400 mds. per acre of Sugarcane, 25·75 mds. per acre of Cotton and 44·5 mds. per acre of Wheat have been obtained from 15 acre plots. 440 acres under orchard have been established so far (Aug. 64). A beginning has also been made with Dairy and Poultry schemes. Control of floods and supply of perennial irrigation from Bhadra Canal System, which is already late by 5 years, will considerably improve the economy of the Farm.

The Farm has a fleet of about 100 tractors, 60 harvester combines, miscellaneous types of agricultural implements and special equipment such as winnowing, grading and loading machines, "Rain-makers", Spray irrigators, Check-row Cotton planters, Maize Planters and earth moving equipment such as Ditcher, Dozers, Excavators and scrapers, besides transport vehicles. The Farm has also a well-equipped workshop with the latest type of machinery for overhauling.

The Second Mechanised Farm at Jetsar, near Suratgarh, has already been started. Machinery for the new Farm has started arriving from the U.S.S.R. as well as from indigenous sources. An area of over 2,000 acres has been put under various Kharif crops.

One of the objectives of the Farm is to produce pure pedigree seeds of wheat and other crops. In 1961, about 85,000 maunds of wheat seed alone was supplied to various States including Rajasthan, Bihar and Orissa. In 1962 the Farm has offered Rajasthan 100,000 maunds of wheat seed.

During the sowing period work was carried out round-the-clock and fields were prepared during the night and sowing was done during the day. Various agricultural operations for the preparation of seed beds covered 2,500 acres daily. On an average wheat was sown on 500 acres every day.

**Sugarcane**: During the year 1961, the average yield of sugarcane came to 824 maunds per acre, the highest yield being 1,400 maunds per acre from a plot of 15 acres.

In the orchards of the Farm about 11,000 malta grafts were planted in 1961 besides 300 mango, 1,500 peach and 1,500 plum grafts and also 500 rooted cuttings of grape vines. The area of the orchard is being extended from 150 acres to over 500 acres in 1962. New varieties of fruit trees—guava, grapefruit, pomegranates, kagzi lime, sweet lime, pear, papaya, dates, crab apple and ber—are being tried. In the poultry farm over 500 white leghorns have been raised; by the end of 1962, it was expected to have about 5,000 of these birds. In the animal husbandry section a beginning has been made with two pedigree bulls and 12 pedigree Tharparkar cows from the National Dairy Research Institute, Karnal.

## LIVESTOCK

Livestock population in Rajasthan has increased by 3·34 per cent during the last five years, according to the 9th quinquennial livestock census held on April 15, 1961. The total livestock population which was 324·27 lakhs in 1956 has risen to 335·15 lakhs in 1961.

During the quinquennium, the cattle population in Rajasthan has increased by 8·83 per cent from 120·73 lakhs to 131·40 lakhs. Of these, male cattle over three years have recorded an increase of 10·9 per cent, female cattle over three years of 7·95 per cent and young stock of 5·26 per cent.

The total number of buffaloes has recorded a rise of 16·57 per cent from 34·39 lakhs to 40·19 lakhs.

The number of sheep has decreased from 73·73 lakhs to 73·60 lakhs and the number of goats from 87·30 lakhs to 80·52 lakhs. Horses and ponies have also decreased from 1·13 lakhs to 0·94 lakhs.

Poultry has shown a rise of 57·11 per cent from 4·57 lakhs to 7·18 lakhs.

The following figures relate to 1963-64.

Number of Veterinary Hospitals : 147.
Number of Veterinary Dispensaries : 132.
Artificial Insemination Centres : 16.
Key Village Centres : 20.
Mobile dispensaries : 15.
Mass Immunisation Centres : 7.
Total livestock population : 335·15 lakhs (1961).

## LAND REFORMS

Agriculture will continue to be for many decades the primary industry of the State. Rajasthan can claim remarkable achievements in respect of the implementation of an ambitious programme of land reforms. By the end of March, 1961, the Jagirdari, Zamindari and Biswedari tenures had been abolished. The Rajasthan Tenancy Act, 1955, which may be reckoned as one of the most progressive Tenancy Acts of India, has provided for security of tenure and fixity of rent. Where formerly, multiple tenancies and tenures were in existence, there are now only four classes of tenants viz., Khatedars, Maliks, Tenant-Khudkasht and Gair Khatedar tenants. Rents have been fixed and forced labour prohibited. Ceilings on existing holdings and on future acquisitions have also been prescribed.

By the end of March, 1963, a sum of Rs. 3·40 crores was paid as final compensation to 88,250 Jagirdars.

The State Government has also taken effective steps for the rehabilitation of ex-Jagirdars and have allotted lands to them at concessional rates in the irrigated area, coming under the command of Bhakra Project.

The Rajasthan Govt. has taken a decision that ceiling on agricultural holdings in Rajasthan will be imposed in one stage instead of in four stages as envisaged earlier.

The ceilings prescribed under the Act for a family consisting of five persons is 30 standard acres of land c pable of producing 300 maunds of wheat per year or any other produce equivalent in price of wheat. It also provides that if a family consists of more than five persons, every person in addition to five will get additional six acres of land subject to the maximum of 60 acres of land.

The Bhoodan Yagna Act was passed in 1954 and the Bhoodan Yagna Board created by it started functioning in January 1955. During the year 1962, under the programme of Bhoodan Yagna in the State no land was donated and of the total land available for distribution, 3,932 hectares of land was distributed amongst 836 families.

## PANCHAYATS

Under the Rajasthan Panchayat Samitis and Zila Parishads Act, 1959, 232 Panchayat Samitis and 26 Zila Parishads have been set up in all the blocks and districts of the State respectively.

The Panchayat Samitis are the executive bodies with wide powers including those for formulating and executing the development programmes, and for imposing taxes. The Zila Parishads are the supervisory and coordinating bodies.

Under this democratic decentralisation, at the end of 1963-64, there were 7,391 village panchayats and 1,368 Nyaya Panchayats covering 34,452 villages serving the total rural population of the State

## IRRIGATION

*Bhakra Project :* The supply in the Bhakra Canals in Rajasthan is still non-perennial. The total area irrigated during the year 1963-64 was 4·49 lakh acres.

*Jawai Project :* The total area irrigated from this project during 1962-63 and 1963-64 was 15,000 and 8,400 acres respectively.

*Chambal Project :* The work on this project was started during 1953-54 and both cost and benefits are shared with the Govt. of Madhya Pradesh and the project will be completed in three stages (*i*) Gandhi Sagar Project, (*ii*) Rana Pratap Sagar Project, (*iii*) Kota Dam Project. Most of the work of the first stage *i.e.* the Kota barrage, the Gandhi Sagar, the right main canal and the left main canal were completed by the end of the 2nd Plan and the remaining work was completed during 1961-62. The irrigation was started from this project in November, 1960 and an area of 90,000 acres was irrigated during 1962-63 and 144,000 acres during 1963-64.

The available statistics in respect of irrigation by sources and crops for 1960-61 reveal that out of the total irrigated land of 1,752 thousand hectares, 535 thousand hectares were irrigated through canals, 1,014 thousand hectares through wells and 166 thousand hectares by tanks, 37 thousand hectares through other sources. Out of the total irrigated area, 1,287 thousand hectares were under food crops, 134 thousand hectares under cotton, 38 thousand hectares under sugar cane and 293 thousand hectares under other crops. The total area irrigated more than once was 246 thousand hectares. With the irrigation facilities being extended through construction of a number of major, medium and minor irrigation works and adoption of other improved agricultural practices, Rajasthan which, till recently had been a regular deficit state, has not only attained self-sufficiency in foodgrains, but has also shown a sizeable surplus.

*New Major and Medium Schemes for 3rd Five Year Plan :* Within bracket estimated cost and net area to be irrigated on completion have been given in lakh rupees and '000 acres respectively.

1. Gopalpura (Rs. 93·00 ; 1·60), 2. Manpura (Rs. 20·00 ; 0·80), 3. Sarankheri (Rs. 13·00 ; 0·50), 4. Jaitpura (Rs. 30·00 ; 1·60), 5. Sabi (Rs. 25·00 ; 46·00), 6 Wagli (Rs. 22·00 ; N.A.), 7. Khod (Rs. 25·00 ; N.A.), 8. Basundhari (Rs. 25·00 ; N.A.).

### Groundwater Resources

A rich and extensive groundwater basin has been discovered during April 1962, in Jaisalmer district of Rajasthan, which suffers from chronic scarcity of drinking water.

The groundwater, available in abundance under sub-artesian condition, is of good quality and suitable for irrigation, domestic and industrial purposes.

A total of 14 exploratory tubewells have been converted into production wells in the area between Jaisalmer and Chandan village. They yield from 16,000 to 51,000 gallons per hour of good quality water.

Two successful tubewells, one located at Dabla, ten miles from Jaisalmer, and another at Botia, 17 miles from Barmer, will provide sustained supply of sweet drinking water to these two districts.

### Rajasthan Canal

The Rajasthan Canal from Harika (Punjab) to Ramgarh (Jaisalmer district) on completion will be 425 miles long and will irrigate 36·3 lakh acres, out of the net culturable commanded area of 67·4 lakh acres. The gross commanded area under this project will be 50 lakh acres.

An amount of Rs. 38 crores was provided in the State's III Plan for this project out of which Rs. 19·26 crores or 50·73 per cent were spent in the first three years of the Plan. During 1963-64 a sum of Rs. 605·19 lakhs or 102·57 per cent of the allotment Rs. 590 lakhs was spent. During the same year 1,331 lakh cft. of earth work, 356 lakh cft. of compaction and 1·05 lakh cft. lining were completed in the Punjab portion of Rajasthan feeder. Likewise 2,520 lakh cft. earth work, 804 lakh cft. of compaction and 0·16 lakh cft. of lining were carried out on the construction of the main canal. Besides, earth work in 614 lakh cft. was completed in Anupgarh branch system and 558 lakh cft. on various distributaries and minors.

Rajasthan canal will depend on the water of the rivers Beas and Ravi. For ensuring perennial supply, Pong Dam on the Beas is being constructed by the Government of Punjab under the aegis of Beas control. The work on the project was started in 1960-61 and it is expected that the project would be completed in about 8 years.

In addition to the irrigation benefits, it will have six units of 60,000 kW. installed capacity each for generating power. The Rajasthan Government has made a provision of Rs. 25 crores in its Third Five Year Plan to meet its share of expenditure on the Pong dam. Out of this amount, a sum of Rs. 11·03 crores or 44·13 per cent is estimated to have been spent. During 1963-64, the share of expenditure of the State was estimated to be Rs. 467·47 lakhs which was 92·47 per cent of the revised outlay of Rs. 505 lakhs.

## POWER PROJECTS

Power supply in the State has been much below the requirements and consequently a major obstacle in the way of Industrialisation and consequent diversification of the State economy. Greater emphasis was laid in the State's Third Five Year Plan on the development of power resources and rural and urban electrification. The Plan envisaged to increase the installed capacity of the State by 253 thousand kW. and electrification of 303 additional localities by the end of the Third Plan period.

During 1963-64, the installation of one 3,000 kW Turbo-set at Jodhpur was nearly completed. Besides, the installation work of five units of 62·5 MW each at Satpura Thermal project in Madhya Pradesh was in progress which is expected to be completed by 1966-67. Rajasthan will get about 103 MW of firm power as its share from the project. The fourth unit of 23 MW was commissioned at Gandhi-sagar during November, 1963 in which Rajasthan is a fifty per cent partner with Madhya Pradesh. Bhakra Left Bank Power Station has been fully commissioned and 22 MW of power is at present available to Rajasthan from it. The work on Bhakra Right Bank power is likely to be completed during 1966-67 and about 45 MW of firm power will be available to Rajasthan. The work on Beas Sutlej project is in progress and is likely to be completed during the early Fifth Plan period.

The work on Chambal Hydel Transmission Stage I was speeded up during 1963-64, 132 kV Neemuch-Udaipur (81 miles) 132 kV Jaipur-Ajmer (84 miles) lines were completed and energised.

In addition to this, Grid sub-stations at Udaipur, Ajmer and Phulera were also commissioned during the year. A net work of transmission lines has been spread supplying power to various corners of Rajasthan. As a result, 66 miles of 133 kV, 19 miles of 66 kV, 245 miles of 33 kV and 103 miles of 11 kV lines were laid bringing the progressive achievement to 612, 216, 1,929 and 1,220 miles of 133 KV, 66 KV, 33 kV and 11 kV lines respectively. The inclusion of 220 kV Hissar-Khetri-Jaipur Transmission line in the Third Plan programme on the direction of the Planning Commission and the Central Water and Power Commission was a major step taken by the Government in 1965. The preliminary work has started and it is proposed to complete the Hissar Khetri section (82 miles) including Grid-sub-station at Khetri by the end of 1965-66.

During 1963-64, 128 localities were electrified as against 120 during 1962-63, thus bringing the total to 450 localities electrified so far, out of which 14 localities were electrified by privately owned power houses.

During 1963-64, 96 million Kwh of electricity was generated in Rajasthan and 224·86 million Kwh and 0·19 million Kwh were purchased from the adjoining States and non-electric utilities respectively, bringing the total electricity generated and purchased to 321·59 million Kwh. The percentage distribution of power consumed for different uses during the year reveals that maximum amount of power continued to be consumed for industrial purposes amounting to 55 per cent of the total power sold. This was followed in order by domestic purposes constituting 16·66 per cent, commercial purposes 11·46 per cent, public water and sewage pumping 9·37 per cent, irrigation and agricultural dewatering 4·09 per cent and public lighting 3·33 per cent.

The Union Government has decided to build a second nuclear power station with an initial capacity of 200 megawat at Rana Pratap Sagar near Kotah. It is expected to be completed by the end of 1967 and is estimated to cost Rs. 32 crores. An additional 200 mw. unit, at an estimated cost of Rs. 30 crores at the Rajasthan atomic power station, was approved by the Govt. of India on June 28, 1965. This additional unit is expected to go into commission towards the end of the Fourth Plan.

## CO-OPERATION

In keeping with the policy of the Government of India the programme was built up gradually and voluntarily. By the end of the cooperative year ending June, 1964 the number of cooperative societies was 21,552 with a membership of 12,83,925. The share capital and the working capital of these societies stood at Rs. 913·19 lakhs and Rs. 4,044·10 lakhs respectively.

# WEST BENGAL

Area : 33,829 sq. miles ; Population : 34·93 million (1961 Census). Percentage of increase 1951-61 : 32·79. Density : 1,032. Sex ratio 878 females per 1,000 males. Literacy : 29·3 per cent.

Capital : Calcutta.

There are three Divisions in the State, the Burdwan Division, the Jalpaiguri Division and the Presidency Division.

The Districts in the Burdwan Division with their headquarters in brackets are as follows :

Bankura (Bankura), Birbhum (Suri), Burdwan (Burdwan), Hooghly (Chinsura), Midnapore (Midnapore), Purulia (Purulia).

The Districts in the Jalpaiguri Division with their headquarters in brackets are as follows :

Cooch-Behar (Cooch-Behar), Darjeeling (Darjeeling), Dinajpur* (Balurghat), Jalpaiguri, (Jalpaiguri), Malda (Malda), Murshidabad (Berhampur), Nadia (Krishnagar), 24-Parganas (Alipur). Calcutta and Howrah comprise the Presidency Division.

*Panchayats :* Panchayati Raj, which aims at democratic decentralisation was introduced all over the State on Oct. 2, 1964. The rural area of West Bengal has been covered by a net work of Gram and Anchal panchayats. The total number of Gram Panchayats (Oct. 2, 1964) in the State is 19,649 and that of Anchal Panchayats 2,925. The State will have 15 Zilla Parishads to replace the existing District Boards and 325 Anchal Parishads. All the Anchal Panchayats will be covered by Nyaya Panchayats. By Oct. 2, 1964, 52 Nyaya Panchayat, had been set up.

The State Government decided on July 11, 1961 to abolish trial by jury in the district courts.

## POPULATION

(See under "Population").

## AGRICULTURE

Acreage and production of principal crops in 1963-64 are as follows :

| | Production (tons) | Area (acres) |
|---|---|---|
| Rice .. .. | 5,249,800 | 11,197,100 |
| Wheat .. .. | 32,200 | 135,700 |
| Sugarcane .. | 13,33,300 | 77,000 |
| Jute .. .. | 3,270,000† | 1,012,400 |

† Bales.

During the Second Five Year Plan 100 improved seed multiplication farms were established and during the Third Plan it was decided to establish another 117 Block Seed farms. Up to Jan. 1965, out of 117 Block Seed farms 51 have been established. From these farms about 54,000 foundation paddy seeds were produced during 1963-64. In rural areas 970 demonstration centres were opened. Land covering 1,859·93 acres was reclaimed.

The total provision in the State's Third Plan in respect of agriculture alone is Rs. 53·60 crores.

*Land Tenure :* Zamindaris and intermediary interests in West Bengal were abolished on April 15, 1956 corresponding to the 1st of Baisakh in the Bengalee Year.

All rent-receiving interests in agricultural lands vest in the State and the numerous tenants and sub-tenants, as the case may be, now hold land directly under the State Government. All forests too are now managed directly by the Government.

Under the Act, each intermediary is permitted to retain in his possession non-agricultural land up to 15 acres, homestead land which together with such non-agricultural land does not exceed 20 acres, agricultural land up to 25 acres, and tanks, fisheries and orchards. Calcutta is a notable exception in the Act.

There are roughly 1·28 million acres of cultivated land in the State, of which, according to preliminary but by no means accurate statistics, only 400,000 acres will be found surplus for redistribution among the tillers of the soil.

Compensation is payable on a slab system at rates varying between 20 times for the first and lowest slab of Rs. 500 of net income and twice for the highest slab of over Rs. 1 lakh.

Where, however, the interest of an intermediary is held under a *bona fide* trustee or other legal obligation for an exclusively charitable or religious purpose, the compensation payable is being assessed as a perpetual annuity equal to the annual net income of the interest.

Payment is to be made partly in cash and partly in non-negotiable annuity bonds at 3 per cent per annum and payable in 20 equal annual instalments.

*Sonarpur-Arapaneh Scheme :* The Sonarpur-Arapaneh-Matla Drainage Scheme of reclaiming vast water-logged tracts 105 sq. miles in area, with powerful pumping plants, is the first of its kind in India. Under the first part of the Scheme, a submerged area of 23,360 acres has been reclaimed for cultivation. The total yield of paddy from these large tracts of land was 21,000 maunds.

*Bagjola Drainage Scheme :* Rs. 104-lakh Bagjola Drainage Scheme is intended to improve the drainage of 116 square miles of area. The scheme when completed will reclaim 25,600 acres of water-logged lands and render them fit for cultivation, which will result in annual additional yield of 12,091 tons of paddy and 1,619 tons of rabi crops.

Under the Greater Calcutta Milk Supply Scheme, milk colony units are being established at Haringhata and Kalyani (five miles away).

## FORESTS

(See under article on Forests).

## IRRIGATION

Area under irrigation : over 35 lakh acres.

The Kangsabati Reservoir Project, included in the Second Five Year Plan, aims at irrigation of eight lakh acres of land in the Bankura, Midnapore and Hooghly districts. The foundation stone was laid in January 1959. The Silabati Barrage, one of the features of the project, has been completed.

* Also called West Dinajpur.

Some individual schemes are given below :—

| | Total cost (Rs. lakhs) | Area in acres benefited (kharif season) |
|---|---|---|
| Mayurakshi Reservoir | 20,46·60 | 560,000 |
| Harahatuganj Drainage | 12·94 | 16,000 |
| Beral Canal | 21·78 | 9,000 |
| Jibanti-Banki | 3·11 | 6,400 |
| Jampoi | 0·52 | 800 |

| Improvement of Kamakhya Khal | 3·52 | 3,840 |

## DAMODAR VALLEY CORPORATION

(*See under "Irrigation"*)

### TWO DEVELOPMENT SCHEMES

*The Ganga Barrage Scheme :* Work in connection with the Ganga Barrage, also called Farakka Barrage Scheme, is now in progress. The original estimates of the cost of the project was Rs. 76 crores. But there is likely to be an upward revision.

**Benefits expected from the barrage : 1. Supply of water to resuscitate the moribund rivers in West Bengal and also improve the Sunderbans rivers ; 2. Provision for irrigation and flushing on a vast scale ; 3. Improvement of the Calcutta Port ; 4. Provision of a direct railway and road link between the northern and southern parts of the State ; 5. Provision of an inland water route entirely through the Indian Union starting from Calcutta and going up to Bihar and Uttar Pradesh and ultimately to Assam.**

***Reclamation of Salt Lakes :*** **The scheme for the reclamation of the swampy northern and southern salt lakes covering about 33 square miles on the eastern fringes of Calcutta aims at liquidating the scourge of malaria and at reclaiming the water-logged areas, partly for the extension of the City and partly for agricultural purposes.**

### POWER

Jaldhaka Project in West Bengal was taken up during the year 1961. The other scheme in the Third Five Year Plan is Bandel Super Thermal Power Station comprising four 82·5 Mw turbo alternator sets with a maximum continuous rating of 330 Mw.

**Extension of North Calcutta Electrification Scheme : Stringing of the second circuit of 27 miles of the existing 66 kV double circuit tower line between Shamnagar and Ranaghat.**

***Jaldhaka Hydro-Electric Scheme :*** **Tapping of river Jaldhaka in north Bengal to generate 27 Mw of power at the first stage and 9 Mw at the second stage. Provision for the scheme : Rs. 194·01 lakhs.**

***Balasun Hydro-Electric Scheme :*** **Harnessing of river Balasun in Darjeeling District. Estimated expenditure : Rs. 158·53 lakhs. Scheme is kept in abeyance.**

***Kharagpur Midnapore Electrification Scheme :*** **Purchase of power in bulk from D.V.C.'s Kharagpur sub-station and distribution in Midnapore district through a network of transmission lines. Length of overhead lines laid : 114 miles of 11 kV and 33 kV. Capital expenditure : Rs. 45·34 lakhs.**

***Howrah-Hooghly Rural Electrification Scheme :*** **Length of overhead transmission lines laid : About 80 miles of 11 kV. Estimated cost : Rs. 25·89 lakhs.**

***Durgapur-Malda Transmission Scheme :*** **Places supplied with power : Districts of Murshidabad, Malda and West Dinajpur. Provision during the 2nd Plan period : Rs. 34·86 lakhs.**

***Suburban Electrification Scheme :*** **Electrification of a few suburban areas on the outskirts of the licensed area of Calcutta Electric Supply Corporation Ltd. Total Plan provision for colliery electrification, tube-well irrigation, Central testing laboratory and suburban electrification schemes : Rs. 29·21 lakhs.**

***Durgapur Power Station :*** Durgapur Coke Oven Power Station was started with 2 Nos. 30 MV turbo-alternator sets primarily planned to meet power demand of the State-owned coal based industries at Durgapur as well as other industries in the Durgapur industrial belt.

With the subsequent increase in power demand both in public and private sectors around Durgapur, the State Government was called upon to expand the power station by installing 3 × 75 MW and 1 × 150 MW turbo-alternator sets. These units are designed for burning washery middlings. The first unit came into operation in May 1964, second unit later in the same year and the third was expected in June 1965. Other two units of 30 Mw each are already functioning since June 1960.

Bandel and Durgapur Coke Oven Power Stations are being interconnected by 132 KV double circuit transmission line and this will help in keeping lesser stand-by and stable system operation.

As a partial relief to the acute shortage of power in the coal field areas and at Farakka, 4 Nos. Packaged Plants at Dishergarh and 2 Nos. at Farakka each of 1·5 MW capacity are being installed.

By the end of the Third Plan, 2,200 villages in the State will receive the supply of power and 750 deep irrigation wells will be electrically operated.

One hundred and thirteen towns and 798 villages in West Bengal have been electrified till March 1964.

### INDUSTRY

West Bengal ranks second among the major industrial States of India. With only 3 per cent of the country's area, the State shares 8 per cent of India's population. Her share in the manufacturing labour force is even more—22·5 per cent.

According to the latest available information, one-sixth of the total number of factory establishments employing 50 workers or more per day in India, are located in this State. They account for 21·7 per cent of the total productive capital, 22·4 per cent of the total employment and 21·9 per cent of the gross value of output. Their share in the national value added by manufacture, which represents the income generated in the manufacturing sector of the industrial economy, is nearly 21 per cent. These relative shares of West Bengal are next only to those of Maharashtra—the premier industrial State of India.

**Principal industries of the State : Jute, tea, coal, cotton, textiles, paper, rubber, engineering, etc.**

No. of registered factories : 5,614 (1964). No. of workers : 8,17,342 (1963).

No. of jute mills : 83 in 1962 (employing about 2,00,000 workers, 1960).

**Total acreage under jute cultivation in West Bengal : 11,02,400.**

No. of cotton mills : 41 (43,624 workers ; total no. of spindles 6,62,566 ; no. of looms 11,389 ; approximate quantity of cotton consumed 2,87,706 bales of 3½ cwts. each bale) (31st August 1963).

The Kalyani Spinning Mills with 50,000 spindles, one of the major industrial ventures of the West Bengal Government was inaugurated on March 31, 1961 and has gone into production.

The Company has an authorised capital of Rs. 250 lakhs, with the West Bengal Government taking up shares valued at Rs. 140 lakhs. The balance of shares was raised mostly from semi-Government institutions.

***Glass :*** Hindusthan Pilkington Factory at Asansol.

The foundation stone of a sleeper casting factory of the Hindustan Refractories and Ceramic Pvt. Ltd. was laid on March 17, 1963 at Durgapur. The foundry was expected to go into production in 1965 with an output of 50 tonnes sleepers per day.

No. of tea gardens : 285 (250,000 workers). West Bengal produces about 90 million pounds of tea.

No. of coal mines : 228 (about 1,22,000 workers daily on an average). The total output of the West Bengal coal mines is about 16·3 million tons.

West Bengal's tea gardens are mostly in the Dooars, Terai and Darjeeling districts.

No. of paper mills : 5 (about 10,000 workers).

Jute, cotton and most of the other industries are located in the Greater Calcutta industrial area.

Main small scale industries : Handloom weaving, sericulture and silk, brass and bell metal, hand-made paper, palm gur and mat industries.

No. of looms engaged in handloom weaving : 1,50,000.

Principal centres of handloom weaving : Santipur (Nadia), Santiniketan (Birbhum), Rajbalhat, Dhaniakhali (Hooghly).

Principal silk industry Districts : Malda, Murshidabad and Bankura.

*Steel :* Production target of steel at Indian Iron and Steel Works, Burnpore, one million tons and at Durgapur in the public sector two million tons.

Ahmedpur Sugar Mills in the public sector at Ahmedpur, Birbhum, have gone into production.

The industrial group with the respective industrial income, for 1961 in Rs. crores: Spinning, Weaving and Finishing of Textiles 41·6; Iron and Steel 29·6; Rail-road Equipment 16·8; Electrical Machinery 11·6; Rubber Products 10·5; Machinery except Electrical 9·9; Miscellaneous Food Preparations 8·7; Metal Products 8·2; Miscellaneous Chemicals 7·2; Paper and Paper Products 6·5; Electric Light and Power 5·7; Printing, Publishing, etc. 4·5; Non-ferrous Metals 4·2; Basic Industrial Chemicals 3·6; Ship-building and Repairing 3·4; Grain Mills 1·8; Paints, Varnishes, etc. 1·5; Motor Cycles and Bicycles 1·4; Glass and Glass Products 1·4; Tobacco Manufactures 1·3; Others 10·1; Total 189·5.

## LABOUR

No. of registered trade unions: 2,258 (1964).

No. of members of trade unions: about 900,000.

Minimum wages have already been fixed for all the scheduled employments including agriculture.

The Employees' State Insurance Act, which provides for sickness and other medical benefits, covered initially 9,76,719 workers in Calcutta and Howrah areas. The benefit provisions of the scheme have been introduced in 24 Parganas from 29th March 1964, bringing within its ambit 6,46,700 insured employees and their families. The family members are entitled to only medical benefits.

The Employees' Provident Funds Act covers over 10,43,732 workers including workers in tea plantations.

No. of labour welfare centres run by Government: 40.

No. of tenements completed under the Subsidised Industrial Housing Scheme: about 9,742 and 1,970 (Private Sector).

The Labour Department of the State took over the administration of the Employment Exchanges in West Bengal towards the end of 1956 from the Central Government.

About 5,03,887 persons, including 26,461 women, were on the live register of Employment Exchanges at the end of 1964 in West Bengal.

Over 50,000 persons secured jobs through Employment Exchanges in the State during 1964.

## CO-OPERATION

(See under "Co-operative Movement.")

## ROADS

There are six national highways in West Bengal: Calcutta-Delhi (152 miles), Calcutta-Bombay/Madras (90 miles—common alignment in West Bengal), Bihar-Assam (181 miles), Siliguri-Gangtok (35 miles), Calcutta-Siliguri (203·5 miles) and Calcutta-Bongaon (43 miles).

Superior type of extra-municipal roads, maintained by P.W.D. and local bodies are 6,500 miles while the interior motorable type is 13,000 miles.

During Second Five Year Plan construction and improvement of 2,200 miles of new State roads in addition to the spill-over from the First Plan were completed.

The State spent Rs. 18·56 crores during the First Plan period, while in the Second Plan period a total sum of Rs. 21·48 crores approximately was spent on roads and bridges. The estimated expenditure in the Third Plan is about Rs. 25 crores.

With a view to the gradual nationalisation of road transport services, a number of bus routes in the City of Calcutta have already been taken over by the Government and other routes would be taken over under a phased programme.

The State Transport owns (1964) a fleet of 898 vehicles. The Calcutta State Transport Corporation, an autonomous body, has been formed to look after the State transport system in Calcutta.

The State Transport provides employment for approximately 13,000 persons of whom a large number are displaced persons.

About 13,95,000 passengers are carried every day. The State buses cover about 75,800 miles daily.

The State Transport has a Central Workshop which employs about 700 persons.

## COMMUNITY DEVELOPMENT PROJECTS

The Community Development Projects now cover almost the entire population. The object of the programme is the development of rural township with a group of 100 villages in a block taken up for intensive development programme.

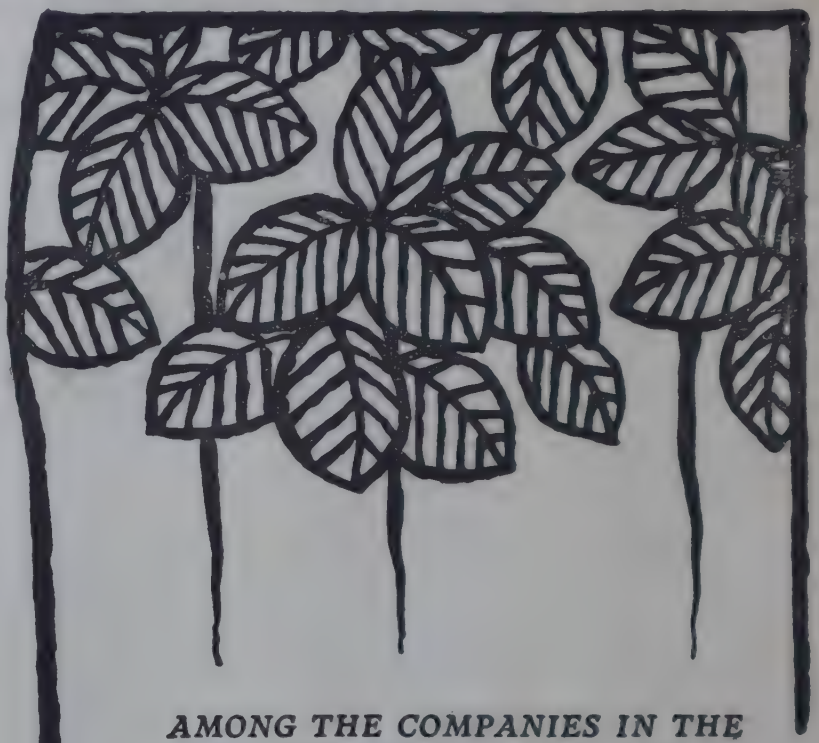
Age is not all... nor the mere fact of survival on the frayed ends of tradition. Among the earliest promoters of a *concept* — that of self-sufficiency for our country through extensive industrialization, we have known no ingenious ways to overcome obstacles apart from flexibility in decision making, and regard for ordinary principles of management wedded to probity. If we are today a rational complement of industrial units, that is because of our reluctance to sit on the fence of the status quo — waiting for an overwhelming consumer demand to develop before being able to set our sights. And if we have a modest reputation of worthiness, we intend to live up to it through an optimum use of talents, available resources and initiative.

# AGE IS NOT ALL...



## *AMONG THE COMPANIES IN THE MARTIN BURN GROUP ARE:*

**THE INDIAN IRON AND STEEL CO. LTD.:** With an enviable record of production efficieney the million ton integrated steel plant at Burnpur is ready with another two-phase expansion programme to double its production capacity by the end of the Fourth Plan period. **National Development Council**

To strengthen and mobilise the effort and resources of the nation in support of the Five Year Plan, to promote common economic policies in all vital spheres, and to ensure the balanced and rapid development of all parts of the country, on the recommendation of the Planning Commission, the Government of India set up a National Development Council.

Its functions are: 1. to review the working of the National Plan from time to time; 2. to consider important questions of social and economic policy affecting national development; 3. to recommend measures for the achievements of the aims and targets set out in the National Plan, including measures to secure the active participation and cooperation of the people, improve the efficiency of the administrative services, ensure the fullest development of the less advanced regions and sections of the community and, through sacrifice borne equally by all citizens, build up resources for national development.

The Council makes recommendations to the Central and State Governments. It is composed of the Prime Minister of India, Chief Ministers of all States and the Members of the Planning Commission. The Council meets as often as is necessary and in any case at least twice in a year.

The Secretary of the Planning Commission acts as the Secretary of the Council.
